REPORT OF THE COLLEGE COMMITTEE.

STUDENTS AND FEES.

SESSION 1928–1929.

The number of Students, other than Evening and Vacation Students, who registered during the Session 1928–29 was 2601, being an increase of 92 as compared with the preceding Session. The number of Evening Students was 441, being a decrease of 67. Vacation Courses were attended by 266 persons, of whom 207 were not regular Students of the College. Adding these figures together, the total number of registered Students is 3249, which is an increase of 195 on the previous year. This increase is partly due to the Vacation Course in Spoken English for Foreign Students, which had not been held in 1927. On the other hand, the Librarianship Vacation School, sometimes held at Easter, was in 1929 held in the summer, and the 45 who attended it are not included in the figures for 1928–29. The Students were distributed as follows:—

[The corresponding figures for the previous Session are shown in square brackets.]

* Figure includes 54 students (46 men and 8 women) also included under III. Faculty of Medical Sciences.

** Included under III. Faculty of Medical Sciences.

† Figure includes 5 students (4 men and 1 woman) also included under I. Faculty of Arts, (*a*) General.

There were 1466 [1399] Students working for Degrees and 700 [750] for Diplomas.

The geographical districts from which the Students came are given in Appendix I. (see p. 87).

Public Lectures in the College were attended by 14,450 persons [12,900], the aggregate attendance being 29,590 [23,038].

The total fees available for the Session 1928–29 amounted to £68,637 14*s.* 11*d.* The increase in fees received as compared with the previous Session was £2,771 2*s.* 4*d.* In addition, £1,018 1*s.* 0*d.* is included in the fees in 1928–29 on account of fees transferred to Special Funds; such fees were not included in 1927–28. The total increase as shown by the Accounts is, therefore, £3,789 3*s.* 4*d.*

THE CURRENT SESSION (1929-30).

The number of Students who have completed their registration and paid fees up to January 31st, 1930, is 2865, as compared with 2778 at the corresponding date in 1929.

The fee revenue (including fees of London County Council and Board of Education Students) to January 31st, 1930, amounts to £68,396, showing an increase of £6,733 as compared with the corresponding date in 1929.

GENERAL FINANCES.

Financial Year 1928–29.

The Accounts for the year ended 31st July, 1929, are appended to this Report (Appendix II., pp. 89 105).

College Establishment Income and Expenditure Account.

Income.—The ordinary income amounted to £202,258 5*s.* 4*d.* as compared with £194,876 0*s.* 2*d* in 1927–28, an increase of £7,382 5s. 2*d.* The improved position, as compared with 1927–28, is mainly accounted for by an increased income from Endowment and Fees.

Expenditure.—The ordinary expenditure amounted to £200,186 13*s.* 4*d.* as compared with £188,246 1*s.* 2*d.* in 1927–28, an increase of £11,940 12*s.* 2*d.* The additional expenditure is due mainly to increases in the salaries of the professorial and non-professorial Members of the Staff, with consequential increased provision for superannuation benefits, and to increased expenditure on departmental maintenance.

The excess of ordinary income over ordinary expenditure for the Session 1928–29 was, therefore, £2,071 12*s.* 0*d.* Adding to this the balance brought forward from 1927–28 (£3,475 16*s.* 0*d.*), the total balance on the Income Account was £5,547 8*s.* 0*d.* Of this, £339 was set aside for the Pension Reserve Fund, and, after providing for other Extraordinary Expenditure amounting to £2,628 2*s.* 2*d.*, the balance of £2,580 5*s.* 10*d.* was carried forward to 1929–30.

The Balance Sheets.

Trust Funds.

The following sums have been added to Trust Funds Capital Account during the year (excluding the investment of dividends transferred from the Trust Funds Income and Expenditure Account):—

	£	s.	d.
(i.) Per Bayliss-Starling Memorial Committee:—			
For the Bayliss-Starling Memorial Scholarship	2,709	3	7
(ii.) Per Dutch Studies Appeal Committee:—			
For the Department of Dutch Studies .	594	3	0

THE CENTENARY FUND.

The position of the Centenary Fund, which amounted on 31st January, 1930, to £223,860, may be summarised as follows:—

	Required.	Raised.	Still needed.
1. Buildings: Great Hall.....	£30,000	£26,173	£3,827
Other Buildings ..	100,000	3,553	96,447
2. Equipment	41,000	30,743	10,257
3. Endowment (including Scandinavian Studies, £10,000)	235,000	96,049	138,951

* Including £20,000 from the Ramsay Memorial Fund.

† Including some earmarked donations which will hereafter be allotted to 1 or 2 or 3.

The principal addition during the year has been the sum of £10,000 received under the bequest of the late Lady Durning-Lawrence (see p. 28). It is to be applied to the Electrical Equipment for the Department of Chemistry.

The Executors of the late Charles Heath Clark have contributed £1,000 for the purposes of the Slade School and £1,000 for the better housing of the Faculties of Arts and Laws.

The provision of new buildings and equipment for the Departmen of Zoology is one of the foremost needs of the immediate future. The sum of £50,000 that was included in the Centenary Appeal would only provide site and buildings. To give full effect to the scheme for the extension of the work of the Department, which includes a Chair of Genetics, a total sum of £240,000 is estimated. The generous offer of £120,000, provided a like sum is raised, either in capital or permanent income (£6,000 a year) within a reasonable period, still remains to be claimed.

Steps are being taken with a view to the early erection of the new Ramsay Memorial Laboratory of Chemical Engineering. Plans are under consideration, and it is hoped that building may begin in the Long Vacation. The Chemical Engineering Building and Endowment Fund Committee, under the Chairmanship of Lord Melchett and the Vice-Chairmanship of Sir Robert Waley Cohen, have already raised £25,445 for building and equipment. They have also received promises of contributions towards maintenance amounting to £3,491 for the first three years, £3,391 for the fourth and fifth years, and £2,700 for the sixth and tenth years. It is hoped that the balance still needed to complete the £50,000 required for buildings and equipment (£24,555) will speedily be raised.

The endowment of the Alexander Kennedy Chair of Civil and Mechanical Engineering, in memory of the late distinguished Professor and pioneer in Engineering education, has been carried a further stage. The fund now amounts to £19,102, leaving £10,898 still to be found.

THE CENTENARY HISTORY OF THE COLLEGE.

The Centenary History of the College, prepared by Mr. H. Hale Bellot with the help of collaborators and compilers, was issued by the University of London Press in July 1929. Mr. Bellot had accepted the office of Co-Editor with the late Sir Rickman Godlee, after whose lamented death he continued the sole Editorship. He had the ready advice and help of many who had the success of his undertaking at heart, chief among them Sir Gregory Foster, and brought zeal and enthusiasm to the task. The story of how the facilities for a broad University Education, irrespective of creed, class, or sex, were, after a prolonged struggle, achieved by our Founders, and by those who followed to carry their ideals to fruition, is one of intense interest, and Mr. Bellot is to be congratulated on the way in which he has told it.

A limited number of copies is still available for members of the College at the special price of £1 1*s*. post free. Those who wish to secure copies are invited to apply to the Secretary. The published price is £1 5*s*.

THE ATHLETIC GROUNDS.

Reference was made in the last Report to the difficulties the College Union Societies were feeling owing to the heavy debts on their Athletic Grounds. These debts were due to circumstance beyond the control of the Societies, arising, in the case of the Men's

Ground, from the making of a new by-pass road, which cut off a large area, and the consequential cost of acquiring and relaying new ground, to meet which the compensation received was inadequate. In the case of the Women's Ground, enlargement became necessary owing to the increased athletic activities and the greater number of women students.

The recent reassessment of the Athletic Grounds has increased the rating nearly threefold, and an additional annual burden is thus laid on the finances of the Union Societies. A determined effort to clear off the debts has been continued throughout the past year, and, with with the help of parents and other friends, a considerable reduction has been achieved. The debts that amounted to £4,450 at this time last year, and were almost equally divided between the Men's and Women's Grounds, have now been reduced to £3,120. Included among the gifts towards the extinction of the debt on the Men's Ground is a sum of £500 from Sir Ralph Forster, Bt., a generous benefactor of the College. A gift of a like sum from the late Lady Durning-Lawrence for the Women's Ground was recorded in the last Report.

The College Committee again invite members of the College to co-operate with the students in their efforts to extinguish the debts.

The Pavilion accommodation on the Men's Ground is inadequate to meet the requirements of the large number of students that now use the ground, and the need to increase it has become an urgent one. It is the hope of the Union Society that an early opportunity of doing this may be found.

RECONSTITUTION OF THE UNIVERSITY.

The new Statutes for the University of London were sealed by His Majesty in Council on 21st March, 1929, the "Appointed Day" on which they, and the resultant modifications in the College Statutes, came into operation.

THE COLLEGE COMMITTEE.

It was a matter of regret to the Committee that, owing to ill-health, Mr. F. V. Schuster was obliged, in June 1929, to resign his membership of the Committee and the office of Joint Treasurer. He succeeded his father (Sir Felix Schuster, Bt.) as Treasurer in 1913, and since then, except for the period when he was absent on war service, has shown his continued interest in the financial affairs of the College, being always ready to give the Committee the benefit of his knowledge and experience in such matters. Lord Loch has been appointed Joint Treasurer in his stead, and the Committee desire to express to him their appreciation of his willingness to undertake this further work for the College.

In conformity with No. 16 of the new Statutes for the University, Dr. Franklin Sibly, then Principal, ceased on the "Appointed Day," 21st March, 1929, to be a member of the College Committee.

Sir John Pakeman was, in July 1929, appointed a member of the Committee.

Professor Allen Mawer was appointed one of the representatives of the Professorial Board from the date of his assuming office as Provost, 1st January, 1930, in succession to Sir Gregory Foster, resigned.

Professor J. E. G. de Montmorency, Professor J. P. Hill, and Professor W. C. Clinton were appointed members of the Committee, on the nomination of the Professorial Board, for the year 1929–30, *vice* Professor J. H. Morgan, Professor C. Lovatt Evans, and Professor M. T. Ormsby respectively.

THE PROFESSORIAL BOARD.

As from 1st January, 1930, Dr. Allen Mawer has become, by virtue of the office of Provost, Chairman of the Professorial Board, in succession to Sir Gregory Foster.

Emeritus Professor Ernest Gardner has been re-appointed a member of the Board for the current Session, in his capacity as Yates Lecturer in Archæology.

Mr. A. Sabonadière (Reader in Indian Law) and Dr. Percy Stocks (Reader in Medical Statistics) have been appointed members, under Statute 24 (4).

Dr. H. E. Monteagle Barlow (Lecturer on Electrical Communications) has been elected a member of the Board for the Session 1929–30, *vice* Dr. Paul Haas, under Statute 24 (5) and Regulation 29.

THE PROVOST.

(*a*) Sir GREGORY FOSTER.

The resignation of Sir Gregory Foster, which took effect on 31st December, 1929, marks the close of a long and distinguished tenure of the office of Provost extending over some of the most momentous years in the history of the College. An endeavour has been made, in the resolutions set out below, to give expression to the sense of indebtedness to him that is felt by all sections of the College community.

(i.) *The College Committee, 3rd December*, 1929:

"That on this, the last occasion on which the College Committee meets during the tenure of the office of Provost by Sir Gregory Foster, the College Committee place on record their appreciation of the great and distinguished services which he has rendered to University College.

"The connection of Sir Gregory Foster with the University dates back to his student days at the College, and has been almost continuous since that time.

"From 1900 to 1904 he acted as Secretary of the College; since 1904 he has been its head, first with the title of Principal, since 1907 (the year of the Incorporation of the College in the University) that of Provost. He has also held the posts of Assistant Professor, and latterly Special Lecturer, in the Department of English. He was elected Fellow of the College in 1896.

"The period of his office has been one of great activity and development in the history of the College, and the share that he has taken in the movements leading first to Incorporation and later to the expansion of the College work in all directions has been a decisive one. It is largely owing to his keen judgment, untiring energy, and devotion in the management of its administration that the College holds its present high position. During his period of office the College buildings have been increased threefold, and many important new departments of study have been established. This success has been due to his powers of organisation and initiative, allied to a deep affection for the College and an entire devotion to its interests.

"His far-seeing wisdom, unfailing tact, and wide experience have been of inestimable value to University College. The College Committee place on record their sense of all that he has accomplished in the furtherance of the interests of the College and their earnest hope that he will long be spared for happy activities unhampered and unrestricted by the burdens which he has so willingly borne during his tenure of his high office."

(ii.) *The Professorial Board, 17th December,* 1929:

"That the Professorial Board desires to place on record its sense of the long and devoted services of its Chairman, Sir Gregory Foster. During the twenty-five years in which he has held this great office he has guided the deliberations of the Board with courage and with wisdom. These twenty-five years have been from many different points of view the most critical in the history of the College. He has played the most prominent part in those developments by which the College has maintained and increased its proud reputation in London, in Great Britain, and in the Empire. In this great work he has been ever mindful of the traditions of our founders, and the ideals by which they were guided. Of the detailed stages by which these hopes of our founders have been carried out, this is not the place to speak; the evidence and the fruit of Sir Gregory's untiring labour, of his far-sighted imagination, and of his wise counsel is to be found in the position which the College occupies to-day. *Si monumentum requiris, circumspice.*"

On 17th December, 1929, at a General Assembly, Sir Gregory Foster took his formal farewell of the College and introduced his successor, Dr. Allen Mawer, who addressed the Assembly.

On 20th December, 1929, a Farewell Dinner of Past and Present Students of the College, organised by the Old Students' Association and the two Union Societies, was held at the Connaught Rooms. Sir Frank Heath, President of the Old Students' Association, and a fellow-student of Sir Gregory Foster, was in the Chair. Upwards of three hundred were present. In the course of the evening, an illuminated portfolio, the work of Miss Margaret Alexander, of the Slade School, containing the signatures of the company, was presented by Sir George Blacker, Professor R. W. Chambers, Dr. Harriette Chick, and the President of the Union Society (Mr. R. C. Wright).

A Special Committee has been formed to take the steps necessary to commemorate in fitting manner the connection of Sir Gregory Foster with the College.

It was a source of gratification to the College that a further recognition of the conspicuous services that Sir Gregory Foster has rendered to the cause of University Education in London was given when the honour of a Baronetcy was conferred on him by His Majesty the King at the New Year, 1930. That the close of Sir Gregory's term of office should have been hampered by ill-health, and by an accident which befell him in November and caused a serious injury to his right knee, has been a matter of great regret to the College community. It is the earnest hope of all his friends that he will be speedily restored to his former health and strength and that he may long continue to enjoy the greater leisure that may be his in the years to come.

(*b*) Dr. ALLEN MAWER.

The Senate have appointed Mr. Allen Mawer, M.A., Litt.D., Provost of the College as from the 1st January, 1930. He comes from the University of Liverpool, where he has occupied the Baines Chair of English Language since 1921. He has a high reputation as a Scholar and is one of the recognized authorities on the subject of Place-names. He is an Old Student of the College, and the Committee take this further opportunity of welcoming him back and of according to him their best wishes for his success in the new and important task that he has undertaken.

THE CHANCELLOR.

(i) The Rt. Hon. THE EARL OF ROSEBERY AND MIDLOTHIAN.

The College shared in the profound regret that was felt throughout the University on the death, on 21st May, 1929, of the revered Chancellor, the Earl of Rosebery. Despite the ill-health that had attended his later years, Lord Rosebery had continued to manifest his interest in the welfare of the College. He was one of its former Life-Governors, and his connection with it, therefore, went back to the days before Incorporation. At the Memorial Service held at St. Margaret's, Westminster, on 24th May, 1929, the College was represented by the following: The Chairman of the College Committee (The Viscount Chelmsford), The Dean of the Faculty of Arts (Professor Chambers), The Dean of the Faculty of Laws (Professor de Montmorency), The Dean of the Faculty of Science (Professor Jeffery), The then President of the Union Society (Mr. Riddehough), The President of the Women's Union Society (Miss Hughes).

(ii) The Rt. Hon. THE EARL BEAUCHAMP.

The College Committee take this opportunity of expressing their satisfaction that Earl Beauchamp has, in the midst of his many public duties, found it possible to accept the office of Chancellor. They are confident that he will do everything in his power to further the interests of University Education in London.

THE PRINCIPAL OF THE UNIVERSITY.

The appointment of Dr. Edwin Deller, Fellow of the College and former Student of the Faculty of Laws, as Principal of the University, in succession to Dr. Franklin Sibley, resigned, was a source of gratification to his many friends in the College.

REPRESENTATIVES.

The following have been appointed, or re-appointed, representatives of the College on the various bodies, or at the Congresses, named :—

DEATHS.

LADY DURNING-LAWRENCE.

By the death, on 27th April, 1929, of Lady Durning-Lawrence, the College lost one who had been closely interested in its progress and a generous benefactress. She was the daughter of Mr. John Benjamin Smith, one of the Founders of the College (1827) and also one of the main promoters of University College School (1831). Her husband, the late Sir Edwin Durning-Lawrence, was educated at the School and at the College. Sir Edwin and Lady Durning-Lawrence were among the chief supporters of the scheme for the incorporation of the College in the University, towards which they subscribed a sum of £30,000. The Durning-Lawrence Hall of the School commemorates Sir Edwin's association with its affairs and his benefactions. After his death in 1914, Lady Durning-Lawrence continued to take the greatest interest in the College and the School. She contributed generously to the College Centenary Fund, and one of her last acts was to send £500 to the Women's Athletic Ground Fund.

At the funeral service on 1st May, 1929, the Provost (Sir Gregory Foster) and the President of the Women's Union Society (Miss D. Hughes) represented the College.

The further benefaction which the College has received under her Will is referred to elsewhere (p. 21).

EMERITUS PROFESSOR SIR GEORGE DANCER THANE.

The death on 14th January, 1930, of Professor Sir George Dancer Thane robs the College of one who held a peculiarly high position in its respect and affection and whose long connection with its life formed a link with a past that is fast disappearing. He received his education at the College, and, after holding the office of Demonstrator, was appointed to the Chair of Anatomy at the early age of twenty-seven. The forty-two years during which he occupied the Chair were ones of great progress in the history of medical studies in London, which ultimately led to the opportunities that the Faculty of Medical Sciences offers to-day and to the development of the Advanced Medical Studies at University College Hospital Medical School. He was an inspiring teacher and had an extraordinary gift of personal contact with his students, maintaining his interest in the after careers of each of them.

He took a deep interest in all that pertained to the welfare of the College as a whole, and was for many years a valued representative of the Professorial Board on the College Committee.

The Managing Sub-Committee, at their meeting on 15th January, passed the following resolution, with the terms of which the College Committee have associated themselves:—

> The Managing Sub-Committee desire to place on record the deep sorrow with which they have received news of the death of Emeritus Professor Sir George Dancer Thane. During his long connection with the teaching work of the College, and more particularly during the period 1877 to 1919, when he occupied the Chair of Anatomy, the position that he held in the esteem and affection of his students and colleagues was a source of strength to the whole community.
>
> On the College Committee, as on all other committees and boards on which he served, his ripe judgment, based on long experience, and wise counsel were of inestimable value.
>
> The Managing Sub-Committee deplore his loss, and desire to express to Lady Thane and the other members of his family their deepest sympathy in the heavy bereavement that they have sustained.

An Extraordinary Meeting of the Faculty of Medical Sciences was held on the same day, and a resolution was passed, from which the following extracts are taken:—

> "His wide and exact knowledge of Anatomy found luminous expression in the 9th and 10th editions of Quain's 'Text-Book of Anatomy,' which his predecessors in the Chair of Anatomy in this College [Jones Quain and Richard Quain] had created. At the time when it was first issued, it was a new type of text-book of Anatomy, more comprehensive and exact than anything that had preced d it . . . and soon became the recognized type of book adopted in medical schools throughout the world. In Thane's hands it attained the still higher standard of precision and lucidity which made it the most reliable and comprehensive text-book of the subject which had ever been issued. Into it Sir George Thane put the wide knowledge he had acquired by original investigation and an amazing familiarity with the

literature of Anatomy. His personal knowledge of anatomists both in this country and abroad . . . was as wonderful as his knowledge of the literature.

"By his death the College has lost a man, not only of wide knowledge and genial humanity, but one who was a link with those who laid so truly and so well the foundations of the Faculty of Medical Sciences, and who himself consolidated their efforts by his loyal and devoted work."

On 17th January, a Funeral Service was held at St. Pancras Church. The members of the College who attended it included the following:—The Vice-Chairman of the College Committee (Professor Sir John Bradford, President of the Royal College of Physicians); The Chairman of the Managing Sub-Committee (Sir Andrew Taylor); The Joint Treasurer (Mr. Digby Besant); The Provost (Dr. Allen Mawer); The Deans of the Faculties of Arts (Professor R. W. Chambers), Laws (Professor J. E. G. de Montmorency). Science (Professor G. B. Jeffery), Medical Sciences (Professor J. C. Drummond), and Engineering (Professor E. G. Coker); The Professor of Anatomy (Dr. Elliot Smith); The Professor of Embryology (Dr. J. P. Hill); The Jodrell Professor of Physiology (Dr. Lovatt Evans); Professors Brandin, Ernest Gardner, E. J. Garwood, Karl Pearson; The Assistant Professor of Anatomy (Dr. H. A. Harris); The Assistant Professor of Physiology (Dr. D. T. Harris); Mr. E. P. Stibbe and Dr. F. Davies, the senior demonstrators in Anatomy; The Sub-Dean of the Faculty of Medical Sciences (Dr. John Kirk); The Senior Tutor (Colonel H. J. Harris); The Tutor to Women Students (Miss E. Goodyear); The Secretary (Mr. C. O. G. Douie); The Presidents of the Union Society and the Women's Union Society (Mr. R. C. Wright and Miss D. Hughes); Messrs. Boakes, Driver, and Hancock, who served for many years under Sir George Thane in the Department of Anatomy.

Sir Gregory Foster, Vice-Chancellor of the University and late Provost of the College, read the Lesson.

Later in the same day, a General Assembly in the Anatomy Theatre was arranged jointly by the College Faculty of Medical Sciences and the Hospital Medical School, at which the Professor of Anatomy, Dr. Elliot Smith, spoke of Thane's great work in the subject. He was followed by Professor Sir John Rose Bradford, President of the Royal College of Physicians, and Professor Percy Flemming, former colleagues of Sir George Thane.

The Sir George Thane Theatre, now used for general lecture purposes, but once the Anatomy Theatre, will perpetuate his name in the part of the College Buildings associated with him.

The Committee also record with regret the death of the following persons connected with the College:—

Sir Arundel Tagg Arundel (Student during the period 1861-65). [8th November, 1929.]

Mr. Arthur Berry, Vice-Provost of King's College, Cambridge (Elected Fellow in 1886). [15th August, 1929.]

Lady Bragg (Wife of Sir William Bragg, former Professor of Physics).

Mr. Sydney Carline, Ruskin Master of Drawing, Oxford (Former Student of the Slade School). [15th February, 1929.]

Mrs. W. K. Clifford (Widow of Professor W. K. Clifford, Chair of Applied Mathematics and Mechanics, 1870–79). [April, 1929.]

Professor Karl Pearson represented the College at the Funeral on 24th April, 1929.]

Dr. S. Z. de Ferranti (Pioneer of High Tension Transmission of Electrical Energy). (Elected Fellow in 1928.) [13th January, 1930.]

Sir William T. Thistelton Dyer (Former Life-Governor). [24th December, 1928.]

The Rt. Hon. Lord Eversley (Former Governor). [19th April, 1929.]

Dame Millicent Fawcett (A pioneer in the University Education of Women; attended courses at the College in 1878–79). [5th August, 1929.]

Sir George Fordham (Former Student). [21st February, 1929.]

Lady Gollancz (Wife of Emeritus Professor Sir Hermann Gollancz).

Robert Gordon (Studio Assistant in Sculpture; a valued servant of the College since 1911). [February, 1929.]

His Honour Judge John Cameron Graham (Former Student) [August, 1929.]

Mrs. John Richard Green, widow of the historian (Former Life-Governor). [May, 1929.]

Dr. B. W. Henderson (Elected Fellow in 1898; a former pupil of University College School). [January, 1929.]

Dr. Charles Alwis Hewavitarne (Student in the Faculty of Medicine, 1896–1904; Delegate of Ceylon University College at the Centenary Celebrations.) [3rd April, 1929.]

Dr. Alex Hill (Former Life-Governor; a pupil of University College School). [27th February, 1929.]

Mrs. H. Hirschfeld (Wife of the Goldsmid Lecturer in Hebrew). [September, 1929.

The Rt. Hon. Lord Hollenden (Former Life-Governor). [18th February, 1929.]

The Marquis Inouyé, Japanese Ambassador in London, 1913–16 (Student, 1875–78). [November, 1929.]

Sir E. Ray Lankester (Former Student; Professor of Comparative Anatomy, 1874–1891; Emeritus Professor). [August, 1929.]

Professor F. W. Oliver and Professor T. G. Hill represented the College at the Memorial Service at St. Martin's-in-the-Fields.

Mr. F. T. Marchant (Senior Assistant in the Department of Hygiene and Public Health; in the service of the College for 36 years). [10th March, 1929.]

Dr. F. J. Port, Superintendent of Examinations at the University (Former Student). [September, 1929.]

Mr. Edmund de Quincey Quincey (Member of the College Committee from 1919–25; Joint-Treasurer, 1922–24). [26th January, 1929.]

Mr. Adrian Wheeler (Librarian of the College, 1871–1901). [29th September, 1929.]

MEMORIAL TO LADY FOSTER.

The members of the Ladies' Tea Club and other friends of the late Lady Foster have presented, as a tribute of the affection in which she was held, a Bechstein Grand Piano for use in the Great Hall. It bears a suitably inscribed tablet and is known as the "Lady Foster Piano." The Committee feel that there could be no more suitable memorial of one who did so much for the social life of the College and who had so great a love of music. The possession of such a beautiful instrument is a fortunate acquisition to the College community as a whole, and more especially to the recently-formed College and Hospital Music Association, which is under the direction

of Dr. Richard Chanter. A Lady Foster Music Library, housed in an oak cabinet in the lobby room of the Great Hall, has also been given, together with a small fund for the purchase of additional music.

ARMISTICE DAY.

On Monday, 11th November, the Armistice Celebration was observed jointly with the Hospital and Medical School. A Wreath of Remembrance was placed around the names, in the South Cloisters, of those members of the College who gave their lives in the Great War. The assembly in the Great Hall included many Nurses of the Hospital and relatives of the fallen. The Commemoration Sentences were spoken by the Provost, the Last Post was sounded, and the Two Minutes' Silence followed. The hymn "O God, our Help in Ages Past" and the National Anthem were sung.

FELLOWS.

The following have been elected to the Fellowship of the College:—The Hon. Richard Stafford Cripps, J.P., K.C., authority on Patent Law; Lieut.-Col. Kenelm Edgcumbe, M.Inst.C.E., M.I.E.E, President of the Institution of Electrical Engineers, identified with the design of Electrical Measuring Instruments and Protective Relays; Mr. Harold Muir Evans, M.D., M.R.C.S., L.R.C.P., Surgeon, Lowestoft Hospital, formerly House Surgeon, University College Hospital, has carried out valuable researches in connection with the Nature of Fish Venom; Mr. W. E. Garner, D.Sc. (Birmingham), Leverhulme Professor of Physical Chemistry at the University of Bristol, formerly Reader in Physical Chemistry at the College; Capt. Geoffrey Terence Roland Hill, M.C., M.Sc.(Eng.), inventor of the Pterodactyl Aeroplane; Mr. Allen Mawer, M.A., Litt.D., Provost of the College, Director of the Survey of English Place-Names, formerly Baines Professor of English Language, University of Liverpool; Mr. George Samuel Sansom, D.F.C., M.C., D.Sc., Honorary Research Assistant in Embryology, has carried out valuable researches on the Early Development of Rodents; Sir (Henry Francis) Herbert Thompson, Bt., Hon.D.Litt.(Oxford), an authority in Demotic and Coptic, translator of the 4th Century Coptic Gospel of St. John; Mr. Gwynne Evan Owen Williams, M.D., D.Sc., F.R.C.S., Surgeon, Vice-Dean of University College Hospital Medical School.

TITLE OF HONORARY FELLOW.

The title of Honorary Fellow has been conferred, under Statute 28 [*a*], on the following:—

Mr. Dukinfield Henry Scott, M.A., LL.D., D.Sc., Ph.D., F.R.S., a distinguished Botanist, author of many standard works, Past-President of the Linnean and other learned Societies.

Professor Henry Tonks, F.R.C.S., Slade Professor of Fine Art in the University of London since 1917; a member of the Staff of the Slade School since 1893.

HONOURS AND APPOINTMENTS.

Past and Present Students and Other Persons connected with the College.

The following are among the Honours and Appointments of which information has been received :—

(i.) Honours and Special Awards.

New Year Honours, 1929 :—

Fleming, Emeritus Professor John Ambrose (Pender Chair of Electrical Engineering, 1885–1926 ; Fellow).	Knight.
Armitage-Smith, Mr. Sydney Armitage (Fellow).	K.B.E.
Fletcher, Sir Walter Morley (Member of the Galton Sub-Committee).	C.B.
Hill, Dr. George Francis (Fellow).	C.B.
Worthington, Mr. John Hubert (Former Student).	O.B.E.

Exhibition Bursaries	339	12	0
W. W. Rouse Ball Loan Fund	120	0	0
	£1123	2	0

At the time when these Grants were made, the amount available was not sufficient to meet all the applications that were received.

The list of new donations to the Fund is given in Appendix III.

Bursaries are gifts towards maintenance; Exhibition Bursaries are gifts towards fees. These awards are generally made to Entrance Scholars whose circumstances are such as to make supplements to the value of the Scholarships essential.

Loans are made on the following terms :—

(*a*) Loans during a Student's career in the College shall not carry interest.

(*b*) After the end of a Student's career in the College the loans shall carry interest at the rate of 1% above Bank Rate, with a maximum of 5%, except in respect of the W. W. Rouse Ball Loan Fund, which is free of interest.

(*c*) Loans should be repaid within three years from the completion of a Student's College career, unless, on the special application of the Student concerned, an extension of time is granted.

(*d*) Students to whom loans are granted will sign a document accepting these conditions, and in the cases of Students under age their parents or guardians shall countersign the same undertaking.

It has been possible, up to the issue of this Report, to make the following Grants for the Session 1929–30 :—

	£	s.	d.
Loans	342	0	0
Bursaries	432	0	0**

** Including Morris Bursary of £20, War Memorial Bursary of £40, and Bursaries to the amount of £140 given by special donation from Mrs. Wharrie.

THE COLLEGE SITE AND BUILDINGS.

Reference was made in the last Report to the acquisition of the lease of the annexe of Dr. Williams's Library (formerly University Hall) for College purposes. It has been renamed "Henry Morley" to commemorate the tenure by Professor Henry Morley of the Principalship of University Hall and the fact that the annexe was built during his period of office. The work of extension and re-modelling was completed in time for the building to be occupied at the opening of the current Session. The School of Librarianship library has been transferred there, and, in addition to small private rooms for certain members of the Academic Staff, two large class-rooms have been formed. These new premises have, to a certain extent, met the pressing need for accommodation in the Faculty of Arts.

The reconstruction of the accommodation hitherto used by the Department of Hygiene for the purposes of the Department of Psychology was carried out during the Long Vacation. The Library of Philosophy and Psychology has been transferred to an adjacent room, the History of London Library, which has long been cramped for want of proper accommodation, being moved to the former Philosophy Library. The Department of Psychology now has opportunity for development that has long been hindered for want of space. Several small sound-proof cubicles have been provided for research purposes, and the Sharpe Theatre has been enlarged. In the absence of the provision of funds from any other source, the expenditure (about £1,100) has been met from General College Funds.

The need for a room suitable for displaying the Art treasures of the College has long been felt. Through the generosity of Sir Joseph Duveen, who has promised to meet the expenditure of equipping such a room, it has now been possible to put the scheme into operation. The room formerly known as the South Classroom has been allocated for the purpose, and Messrs. Dove Bros. have been entrusted with the contract. Mr. A. M. Hind, Assistant Keeper of Prints and Drawings at the British Museum, has rendered invaluable assistance in examining and reporting on the condition of the prints and drawings that have for so long lain hidden, and has undertaken the supervision of the mounting and cleaning of the more valuable ones. The new room, planned by Professor Richardson, will provide ample accommodation for exhibiting the pictures, and a fireproof safe for storing those not on exhibition. It is hoped that it will be completed during the course of the current Session. The College is greatly indebted to Sir Joseph Duveen for his generous action in making the scheme possible, as well as to Professor Tonks, to whom the original idea is due and through whose good offices Sir Joseph Duveen first became interested in it.

The plaster sculptures in the Flaxman Gallery and Drawings Room were specially treated by the Department for the Supply of Casts at the Victoria and Albert Museum during the Long Vacation.

The sites of No. 134 Gower Street and Nos. 21 and 22 Little Gower Place have been let on a building lease to Messrs. H. K. Lewis to enable them to carry out a scheme of re-building their corner of Gower Street and Gower Place. Certain accommodation

will, by agreement with Messrs. Lewis, be available in the new building for the Johnston Lavis Collection, hitherto housed in No. 134 Gower Street, and for the Architecture Atelier, which at present occupies temporary and inadequate premises on the University Site.

The College tenancy of No. 88 Gower Street expired last Christmas Day. A new 20-years' lease of Nos. 88 and 88 A Gower Street has been obtained from the Bedford Estate Office.

In order to relieve the overcrowded condition of some of the administrative offices, Room Beta, hitherto used as a classroom, has been taken over for administrative work.

BENEFACTIONS AND DONATIONS.

(Other than Centenary Fund, see p. 21.)

The College Committee make grateful acknowledgment of the following gifts:—

The list on p. 107 includes the grant from the Drapers' Company for the Biometric Laboratory (£500); the sum subscribed annually through His Excellency the Italian Ambassador for the Department of Italian (£300); the grant from the Rhodes Trustees towards the Chair of Constitutional Law (£200); the grant from the Carnegie United Kingdom Trust in aid of the School of Librarianship (£200); the grant from the Incorporated Institute of British Decorators for the Division of Decoration (£400); and donations towards the Students' Loan and Bursary Fund, including £120 from Mrs. M. W. Wharrie.

The Chadwick Trustees have, as from the current Session, made an increased grant of £200 a year for three years to the Department of Municipal Engineering and Hygiene, which bears the name of Sir Edwin Chadwick. They have also made a special grant of £500 towards the cost of equipping the new Chadwick Laboratory.

The American History Appeal Committee of New York, acting in co-operation with a London Committee, have achieved the object for which they were formed—the establishment of a Chair of American History at the College. The Hon. John W. Davis, formerly Ambassador in London, has acted as Honorary Chairman of the American Committee, with Major George Haven Putnam as Executive Chairman, Mr. Otto H. Kahn as Treasurer, and Mr. William H. Baldwin as Secretary. Lord Loch is Chairman, and Sir Frederick Macmillan Hon. Treasurer, of the London Committee. As a result of the efforts of these two Committees, £3,196 12*s.* 7*d.* was collected in New York, and £1,670 2*s.* 0*d.* in England. The Board of Directors of the Commonwealth Fund of New York became interested in the scheme and voted $214,500, to be applied to the salary of the Professor and his Assistant or Assistants. The warm thanks of the Court and Senate of the University have been extended to those who were concerned in bringing about this satisfactory result. Steps are being taken with a view to making an appointment to the Chair of American History before the opening of next Session.

The Bayliss-Starling Memorial Committee have given the sum of £2,500 for the establishment of a Bayliss-Starling Scholarship "for the promotion and encouragement of the study of Physiology and Biochemistry". Mr. F. G. Young, a student of the College, was appointed first Scholar.

A Committee of past and present colleagues and friends of Professor Francis Wall Oliver, on the occasion of his retirement, provided the sum of £434 2*s.* 6*d.* for the endowment of an "Oliver Bursary in Botany" for the purpose of encouraging research in Botany, and of commemorating the 69 years' association of Professor F. W. Oliver and his father, Professor Daniel Oliver, with the Chair of Botany at the College.

The gift by the Ladies' Tea Club, and other friends of the late Lady Foster, of a grand piano for the Great Hall is referred to on p. 32.

To commemorate the establishment of an Exhibition Room (see p. 59), Emeritus Professor Frederick Brown has presented to the College a fresco, probably by Paul Veronese.

The gift of £500 by Sir Ralph C. Forster, Bt., towards the reduction of the debt on the Men's Athletic Ground is referred to on p. 23.

Sir Edward Sharpey-Schafer, Jodrell Professor of Physiology, 1883–1899, has presented the Powell and Leland microscope, with which Professor Sharpey, F.R.S., Professor of Anatomy and Physiology at the College from 1835 to 1874, carried out many of his histological researches. It will be placed on the table on which Professor Sharpey gave his demonstrations, now in the Medical Sciences Library. He has also presented a portrait plaque of himself, made at the Physiological Congress of 1923, which will hang in the Entrance Hall of the Department of Physiology.

The following further gifts have been received :—

From the Hon. Eleanour Brougham, through the good offices of Professor Borenius, the cost of providing suitable cases for the Wooldridge Collection of Fine Art Slides; from Mr. Arthur Jaffé and Mr. William Jaffé, through the good offices of Professor Filon, a portable equatorial telescope, which belonged to their father, the late Sir Otto Jaffé; from Mr. H. R. Fry, an eight-inch refracting equatorial telescope, together with the cost of removing, re-erecting, and re-conditioning, for use in the University Observatory at Mill Hill Park; from Miss Agnes Paul, Fellow of the College, three guineas to augment the capital sum for the endowment of the Agnes Paul Prize in Greek; through the good offices of Miss Murray, the Belzoni Medal presented to Jean Louis Goldschmid (for the Department of Egyptology); from Dr. Michael Foster, minute-books of the Roundhead Debating Society, kept by his father, the late Sir Michael Foster; from Dr. Prynce Hopkins, £100 towards the extension of the accommodation and re-equipment of the Department of Psychology; from Messrs. Neal & Sons, the offer of a Prize of 10 Guineas in Architecture.

Donations to the Library are recorded on pp. 121–126.

THE ACADEMIC STAFF.

Appointments and Changes.

An addition has been made to the list of titles conferred on the Academic Staff by the institution of the grade of Honorary Research Associate, which will be open to persons of distinction engaged in independent research in a Department of the College. Appointments to this grade will be made in the regular manner by the College Committee, acting on the recommendation of the Professorial Board after receiving a report from the Head of the Department concerned.

Faculty of Medical Sciences.			
Bayliss, Dr. L. E.	Physiology & Biochemistry.	Sharpey Scholar.	Honorary Assistant.
Chibnall, Dr. A. C.	Physiology & Biochemistry.	Hon. Research Assistant.	Honorary Lecturer.
Pickford, Miss L. M.....	Pharmacology.	Demonstrator.	Assistant.

The following new appointments and changes have been made:—

Faculty of Arts.

Professor Bernard Ashmole, formerly Director of the British School at Rome, has taken up the duties of the Yates Chair of Archæology as from the beginning of the current Session in succession to Dr. Ernest Gardner, to whom the title of Emeritus Professor has been granted. Professor Gardner retains his active connection with the Department as Yates Lecturer.

Professor Henry Tonks, who has occupied with such distinction the Slade Chair of Fine Arts since 1917, has intimated his desire to retire from the Chair at the end of the current Session. The College Committee felt that they had no option but to recommend that his retirement be accepted. Steps are now being taken to appoint his successor.

In the School of Librarianship, Mr. W. E. Doubleday, Chief Librarian of the Hampstead Public Libraries, has succeeded Mr. C. R. Sanderson (who has gone to the Municipal Library, Toronto) as Lecturer in Library Routine; Mr. H. W. Acomb, Librarian of the National Liberal Club, has been appointed Lecturer in Cataloguing.

In the Bartlett School of Architecture, Mr. Matthew J. Dawson has succeeded the late Mr. W. R. Jaggard as Lecturer in Building Construction; Mr. J. R. Alabaster, Assistant, has resigned.

In the Department of Political Economy, the Master of Balliol, Mr. A. D. Lindsay, has accepted the office of Jevons Memorial Lecturer for the current Session; and Professor T. E. Gregory, the Sir Ernest Cassel Professor of Banking and Currency at the London School of Economics, that of Newmarch Lecturer in Statistics. Mr. E. F. M. Durbin has been appointed Ricardo Scholar and Assistant.

Dr. F. S. Boas has accepted appointment as Special Lecturer in English Literature.

The title of Assistant Professor has been conferred upon Dr. J. C. Flugel, formerly Senior Lecturer in Psychology.

Mr. E. C. Titchmarsh resigned his Readership in Mathematical Analysis at the end of last session, having been appointed to the Chair of Mathematics in the University of Liverpool. Mr. J. J. Vincent, Assistant and Jessel Student in Mathematics, and Mr. W. J. Cunnington, Assistant, have also resigned.

Miss Olwen Kendall has been appointed deputy to Mr. Norman Baynes (Reader in the History of the Roman Empire), who has been relieved of his teaching for the current session, but who retains the supervision of his department.

The following further new appointments have been made:—

	Department.	*Status.*
Ashworth, Mr. H.	Architecture.	Assistant.
Bosanquet, Mr. L. S.	Mathematics.	Assistant.
Estermann, Dr. T.	Mathematics.	Assistant.
Guest, Dr. Edith.	Egyptology.	Honorary Assistant.
Hawgood, Dr. J. A.	History.	Assistant.
Knight, Mr. R. C.	Mathematics.	Assistant.
Scarlett, Mr. F.	Architecture.	Assistant.

Faculty of Laws.

Mr. H. F. Jolowicz, Acting-Head of the Departments of Jurisprudence and Roman Law, has been granted the title of University Reader in Roman Law. Mr. A. Sabonadière, formerly Lecturer, has been appointed to a University Readership in Indian Law, held jointly between University College and the School of Oriental Studies.

Mr. E. R. Guest and Mr. A. S. Gilbert, Assistants for Tutorial Work, have been appointed members of the Faculty.

Faculty of Science.

Professor F. W. Oliver retired from the Quain Chair of Botany at the end of last Session. The following resolution of the Professorial Board, with which the College Committee associated themselves, was passed in June 1929 :—

> "That the Professorial Board desire to express to Professor F. W. Oliver their deep regret that his tenure of the Quain Chair of Botany terminates at the end of the current Session.
>
> "Professor Oliver entered the College as a student in 1881, and ever since that date, with the exception of the period of his study at Cambridge, he has been actively associated with it. He graduated B.Sc. in 1884, was elected to the Fellowship of the College in 1886, in which year he became Assistant to his father, then Professor of Botany. He became Quain Lecturer in 1888 and Quain Professor in 1890. He has brought distinction to the College by his own researches and by the long roll of students whom he has trained.
>
> "As a counsellor he has been loyal to the traditions of the College and has been a leader in many of the developments of recent years. The Professorial Board will miss his wisdom. They wish him many happy years of active work, and they trust that he will often visit the College."

Further references to the retirement are made elsewhere in this Report.

Dr. T. G. Hill, formerly Reader in Plant Physiology, has been appointed Head of the Department of Botany and Professor of Plant Physiology; Dr. E. J. Salisbury, formerly Reader in Plant Ecology, is now Quain Professor. Both have been long associated with Professor Oliver in the work of the Department.

Professor Robert Robinson has resigned the Chair of Organic Chemistry, to which he was appointed in 1928, to go to Oxford as Waynflete Professor. He leaves at the end of the Session.

Dr. Helga Hacker (*née* Pearson), Senior Assistant in Zoology, resigned at the end of the First Term.

The following new appointments have been made :—

	Department.	*Status.*
Dowling, Miss Ruby E.	Biology.	Quain Student.
Fieller, Mr. E. C.	Applied Statistics and Eugenics.	Mathematical Assistant.
Goodeve, Mr. C. F.	Chemistry.	Assistant.
Jane, Mr. F. W.	Botany.	Assistant.
Pretorius, Mr. S. J.	Applied Statistics and Eugenics.	Research Assistant.
Simmins, Miss C. A.	Psychology.	Research Assistant.
Stephenson, Mr. W.	Psychology.	Research Assistant.
Studman, Miss L. Grace.	Psychology.	Research Assistant.

Miss F. M. Wood, Lecturer in Mathematics, Mr. L. F. Gilbert and Mr. B. Topley, Lecturers in Chemistry, have been appointed members of the Faculty.

Faculty of Engineering.

Mr. E. Sprague, Lecturer in Civil and Mechanical Engineering, retired at the end of last Session after a connection with the College dating from 1891.

The title of Assistant Professor of Civil and Municipal Engineering has been conferred upon Mr. H. J. Collins, formerly Senior Lecturer in the Department of Civil and Mechanical Engineering. By arrangement with the London School of Hygiene and Tropical Medicine, Dr. M. E. Delafield has been appointed Special Lecturer on Hygiene in the Department of Municipal Engineering and Hygiene.

Mr. S. S. Watts has been appointed an Assistant in the Department of Civil and Mechanical Engineering and a member of the Faculty.

Faculty of Medical Sciences.

Dr. G. P. Crowden, Lecturer in the Department of Physiology and Biochemistry, and Sub-Dean of the Faculty of Medical Sciences, resigned at the end of last Session to take up an appointment as Lecturer in Physiology as applied to Hygiene at the London School of Hygiene and Tropical Medicine. Mr. H. P. Gilding has succeeded him as Lecturer, and Dr. John Kirk (Demonstrator in Anatomy) as Sub-Dean. Mr. E. Ogden resigned his Sharpey Scholarship, having been appointed Instructor in Physiology at the University of California. Mr. W. H. Newton has been appointed to succeed him as from 1st February, 1930.

Dr. R. J. Brocklehurst, formerly Lecturer in the Department of Physiology and Biochemistry, has been granted the title of Senior Lecturer, but leaves at the end of the current Session to occupy the Chair of Physiology in the University of Bristol.

Mr. J. H. Driberg has been appointed temporary Lecturer in Ethnology during the absence of Dr. W. J. Perry, the Reader in Cultural Anthropology, on field work in the South Africa during the Second and Third Terms.

Dr. A. R. Fee, formerly Demonstrator in Pharmacology, has been appointed an Assistant in the Department of Physiology and Biochemistry.

The following further new appointments have been made :—

	Department.	*Status.*
Dawson, Mr. Warren R.	History of Medicine.	Honorary Research Assistant.
Dingwall, Mrs. Doris.	Anatomy and Embryology.	Honorary Assistant.
Florian, Dr. Jan.	Anatomy and Embryology.	Honorary Research Assistant.
Haines, Mr. R. W.	Anatomy and Embryology.	Honorary Demonstrator.
Hopkins, Mr. S. J.	Physiology and Biochemistry.	Honorary Demonstrator.
Levin, Miss Mary.	Anatomy and Embryology.	Honorary Assistant.
Prendergast, Mr. J. S.	History and Medicine.	Honorary Research Assistant.
Priest, Mr. H. N.	Physiology and Biochemistry.	Demonstrator.
Richardson, Mr. G. M.	Physiology and Biochemistry.	Demonstrator.
Russell, Miss Audrey E.	Anatomy and Embryology.	Demonstrator.
Wright, Dr. Winifred M.	Pharmacology.	Assistant.

ADMINISTRATION.

Mr. E. B. Hicks resigned the office of Finance Secretary and Accountant in April 1929 to take up an appointment as Financial Secretary at University College of Wales, Aberystwyth, the state of his health making it inadvisable for him to continue to live in London. In accepting the resignation, the College Committee expressed their appreciation of his able and devoted services during fourteen years. Mr. E. L. Tanner, M.A., of Clare College, Cambridge, has succeeded him with the title of Accountant. He has previously held various offices in the Indian Civil Service, including those of Finance Under-Secretary, Bengal, and Finance Secretary, Bihar.

Miss D. Obed-Smith, in view of her approaching marriage, resigned the office of Steward in June 1929. Miss J. E. Towle, B.Sc., formerly Assistant Steward, has been appointed as her successor. Miss Margaret T. Blake is now Assistant Steward.

Mr. B. N. Parker, Private Secretary to the Provost and Hon. Secretary of the Old Students' Association, has been granted the additional title of Alumni Secretary.

THE WORK OF THE FACULTIES.

The Report presented by the Provost at the Assembly of Faculties last July deals with the outstanding events of the Session 1928–29. This Report, together with the address delivered on that occasion by Sir Walter Morley Fletcher, who received the Scholars, Exhibitioners, Medallists, and Prizemen, is printed in the Calendar for the current Session.

A list of the Original Publications by members of the Staff and Research Students for the year 1928–29 will also be found in the current Calendar (pp. 341–368). It is a sufficient indication of the active research work that is going on.

A list of the Public Lectures arranged since the issue of the last Report is given below. The attendances are recorded on p. 20. The College Committee desire to take this opportunity of expressing their appreciation of the services of the several lecturers in this important public side of the work.

By members of the College Staff:

Professor Bernard Ashmole.	Inaugural Lecture: "Aim and Method in the Study of Ancient Art."
Professor L M. Brandin..	"Lieux communs des Chansons de Geste."
Professor R. W. Chambers.	"Early Tudor Biographers" (Three lectures).
Professor J. E. G. de Montmorency.	"Momentous Law Suits and Trials in various Countries from Classical to Modern Times" (Twelve lectures).

Professor E. D. Wiersma, of the University of Groningen.	"The Psychology of Dementia" (Two lectures).

The following is a brief summary of matters to be noted in connection with the work of the past year:—

FACULTY OF ARTS.

The Bartlett School of Architecture

The Report of the Professors of the Bartlett School of Architecture, including the Division of Decoration, is appended hereto (p. 118). It will be seen that further notable successes have been gained by Students of the School in open competition for important prizes. The Committee take this opportunity of congratulating Mr. Ashworth and Mr. Scarlett, new members of the Staff, on their united achievement in winning the prize and £750 premium for the plans of a new street in Hull, Yorks. The results of the teaching of Professor Richardson and those who are associated with him are a testimony of their effective methods and are a source of gratification to the College. The numbers working in the Atelier for post-graduate and post-diploma study of Advanced Design continue to be too great for the temporary accommodation provided in Malet Street. Facilities for evening work have again to be provided for some of them in the Bartlett School. An arrangement has been made with Messrs. H. K. Lewis whereby adequate accommodation will be found for the Atelier in part of the new building that is to be erected at the corner of Gower Street and Little Gower Place, adjacent to the Bartlett School.

There are 177 students in the Bartlett School for the current Session, of whom 102 are day students, 42 working for the degree, and 46 for the diploma or certificate.

The Slade School.

The Slade School continues to have as many students as the available accommodation makes it possible to admit. The successes of those who have passed through the School have been notable, many being represented at the Exhibition of Contemporary British Art that was held last Spring in the Imperial Gallery of Art at the Imperial Institute. Two who attracted special notice were Miss Winifred M. Knights for her canvas "The Marriage of Cana," and Mr. Rex Whistler for his water-colour "The Exodus." Of the four figures representing "The Winds" on the exterior of the new headquarters of the London Underground Railways at St. James's Park, three are the work of members of the Slade School (one by Mr. A. H. Gerrard, two by Mr. Eric Gill). A retrospective Exhibition of Paintings and Water-colours by Mr. P. Wilson Steer was held at the Tate Gallery, a portion of the Turner Collection being temporarily removed for the purpose, a rare honour to be accorded by the National Gallery of British Art to a living artist.

It has been a matter of great regret to Mr. C. Koe Child's many friends that he has been unable, owing to illness, to resume his work this Session. He has been a source of strength to staff and students for so many years that his absence has made a painful gap in the School. The Committee offer him their sincere wishes for a speedy recovery. Mrs. Green has rendered invaluable assistance in carrying on his administrative work. An addition to the curricula of the School has been made by the institution of a course in Stage Painting, the services of Mr. V. Polunin having been secured for the purpose. It is hoped that this will prove a further useful outlet for the creative energies of the students.

History of Art.

The work in the History of Art under Professor Tancred Borenius forms a valuable supplement to the teaching of the Slade School. The investigation of English Mediæval Art is kept in the foreground. The Professor and his students are co-operating in the publication of a series of "University College, London, Monographs of Mediæval Art," an anonymous donor having given £150 towards the issue of the first of these. The gift of the Hon. Eleanour Brougham is recorded on p. 61.

The School of Librarianship.

The Director's Report on the School of Librarianship for the Session 1928–29 will be found on p. 111, and shows a further long list of appointments gained by students who have completed their qualifications. The number of students at work in the current Session is 147, as compared with 126 last Session, of whom 109 are working for the University Diploma, as against 89 last year. The work of the School has benefited considerably from the more spacious quarters allotted to it in Henry Morley, which include a well-equipped Library with a large book-store above it. The staff has been strengthened by the appointment of Mr. W. E. Doubleday as Lecturer in Library Routine, and that of Mr. H. W. Acomb as Lecturer in Practical Cataloguing.

The period during which grants were received from the Carnegie United Kingdom Trust has now come to an end, and the financial upkeep of the School has therefore necessitated a larger subsidy from general University funds. Lord Balneil's special committee, formed for the purpose of securing an adequate endowment, has not yet accomplished its task. The demand for the training that the School of Librarianship gives continues to show that it meets a need that cannot otherwise be supplied, and the success that has attended the work of the first ten years justifies a confidence that means will be found for placing it on a permanent and satisfactory financial basis.

Archæology.

Professor Bernard Ashmole delivered his Inaugural Lecture last term on "Aim and Method in the Study of Ancient Art." He has spent some time in investigating the resources of his Department, and has submitted a scheme for the improvement of the equipment, which is receiving consideration. It is a source of gratification to everyone concerned that Professor Ernest Gardner is able to continue his work in the Department as Yates Lecturer.

The Exhibition of Recent Finds in British Archæology, organised by the Honorary Lecturer, Dr. R. E. M. Wheeler, with the active co-operation of a committee of leading British Archæologists under the Presidency of the Earl of Crawford and Balcarres, was held in February–March 1929 with marked success, being the first of its kind. Over 2,500 signed the visitors' book, and considerable interest was created among archæologists. Exhibits were classified in prehistoric, Roman, and post-Roman periods, and a detailed catalogue was prepared. In connection with the Exhibition, a course of Public Lectures was delivered in which Mr. C. R. Peers, H.M. Chief Inspector of Ancient Monuments, Professor R. A. S. MacAlister, President of the Royal Irish Academy, and Dr. Cyril Fox, Director of the National Museum of Wales, participated. The College Committee has expressed to Dr. and Mrs. Mortimer Wheeler its

appreciation of the success that attended their work in connection with the Exhibition. The ordinary class-work has been supplemented by field-work, in which the students have taken an active share.

Egyptology.

The British School of Archæology in Egypt is continuing its work in Southern Palestine at Tell Fara and other sites. The results of last season's excavations were important in throwing light on the most obscure period of Egyptian History, namely, the time of the Hyksos. More historical information was obtained from Sir Flinders Petrie's excavations than from the excavations during the same year in Egypt itself. A considerable amount of information was also obtained concerning the celebrated but little-known people, the Philistines. The Annual Exhibition showing recent results was held at the College in the summer. This season Mr. Starkey and Mr. Harding are continuing the excavations in Palestine, Mr. Kirwan is working for the Egyptian Government in Nubia, Mr. Yeivin and Dr. Frankfort are in Iraq, Mr. Mackay is working under Sir John Marshall in the Indus Valley, Dr. Krishna is Professor of Archæology in the University of Mysore, and Miss Broome is working for the Egypt Exploration Society at Abydos. The staff of the Department in the College has been strengthened by the return of Dr. Edith Guest as Honorary Assistant.

English.

In the Department of English there has been a marked increase in the number of postgraduate students. During the current Session, in addition to the lectures by Professor Chambers and by the Northcliffe Professor, Dr. Sisson, two courses of Lord Northcliffe Lectures in Literature have been delivered by Professor W. Macneile Dixon, Regius Professor of English Language and Literature in the University of Glasgow, and Professor J. W. Mackail, Professor of Ancient Literature in the Royal Academy. These have acted as a great stimulus to the work of the Department. Fuller particulars are given in the list on p. 67.

Scandinavian Studies.

In the Department of Scandinavian Studies, under the direction of Professor J. G. Robertson, full curricula are offered, and most of the classes have been formed this Session, the numbers of students working under the three Lecturers being as follows: Danish 15, Norwegian 8, and Swedish 19. A course in Old Norse Texts is being provided by members of the Department of English, and 10 students are taking it. Mr. Helweg, Mr. Gröndahl, and Mr. Wijk have delivered courses of Public Lectures each term, which have been supplemented by lectures by Professor Chambers and Miss Batho on "Some Early Points of Contact between England and Scandinavia."

French and German.

Professor Priebsch was, happily, able to resume his work at the College at the beginning of the current Session. The staffs of the Departments of French and German, the latter with assistance from postgraduate students, are making full provision for the classes and tutorial work needed by the students of the Faculty of Science and other special groups of students.

Dutch.

Mr. F. C Stoop, who had acted as Chairman and Treasurer of the Committee for the Promotion of Dutch Studies since its institution, found it necessary on account of ill-health to relinquish the offices

towards the end of last Session. The Senate have accorded to him their appreciation of the great services which he has rendered to Dutch Studies in the University of London, both by his active work and by his personal generosity. It is a source of considerable gratification that His Excellency the Netherlands Minister, Jonkheer Dr. R. de Marees van Swinderen, who has shown great interest in the work of the Committee, has seen his way to accept the office of Honorary President and Chairman. The Royal Netherlands Government has made a grant of 2000 guilders (about £166) for the current financial year. A scholarship has been awarded for the first time, the Scholar being Mr. S. T. Bindoff, B.A., who is proceeding with his studies for the M.A., with Anglo-Dutch Relations as his subject. The courses given by the Professor of Dutch History and Institutions, Dr. Geyl, including one in Diplomatic History, are a valuable supplement to the work in General European History. Two students took the Doctor of Philosophy Degree under his direction last Session. The Reader in Dutch Language and Literature, Dr. Haantjes, had 18 students working under him last Session, of whom 5 were taking the B.A. Pass Course and 6 the Intermediate Course; 3 were studying Afrikaans.

Italian. The Department of Italian, with the co-operation of Professor Borenius, has organised a course of special Public Lectures in connection with the Exhibition of Italian Art, including a lecture by Dr. Lionello Venturi, Professor of History of Art in the University of Turin, and one by Dr. Guiseppe Fiocco, of the University of Florence. There are 4 students reading for Honours in Italian.

Phonetics. The Department of Phonetics continues to act as a valuable auxiliary to the modern language departments. The research work has had practical results, including a phonetic analysis of the Efik language of Nigeria by Miss Ward, and of the Amharic language of Abyssinia by Miss Armstrong and Mr. Butlin. The work on the phonetics of Dutch by Miss Quick, on Ibo by Miss Ward, and on the Wolof language of Senegal by Miss Coustenoble and Professor Jones has continued. Reforms in the orthography of Ibo and Efik have been adopted, mainly as the result of researches in the Department. The work of the Evening School is referred to on p. 79.

Political Economy. The development of the Department of Political Economy, under the direction of Mr. N. F. Hall, the Acting-Head, has continued with good results. The number of students enrolled for the current Session is 40, as compared with 27 last Session, 39 of whom are working for the degree. At the request of the British Institute of Social Science, a report on the work and policy of the Department has been prepared by Mr. Hall in co-operation with the Heads of the allied Departments of History, Geography, Anthropology, Psychology, and Statistics, and envisages a wide field. Accommodation for a departmental library is one of the immediate needs if the full scheme is to become effective, research work being an important part of its purview. The appointment of Mr. E. F. M. Durbin as Ricardo Scholar and Assistant has helped to relieve the pressure of the teaching work. The Jevons Lectures by the Master of Balliol, Mr. A. D. Lindsay, and the Newmarch Lectures by Professor T. E. Gregory, will prove a valuable stimulus.

The postgraduate work of the Department of History is one of its outstanding features. The institution of a Chair of American History, to which reference is made on p. 60, will result in widening further the scope of historical studies. The removal of the History of London Library to better accommodation in the room vacated by the Philosophy Library will be the means of furthering the research work in that subject, which is being actively carried on under the Reader, Miss E. Jeffries Davis. (For the Evening School, see p. 79.) History.

The programme of the Department of Philosophy has developed under Professor John Macmurray, and over 50 students were at work last Session. The need for further assistance in teaching will, it is hoped, be met to some extent next Session, when Dr. Keeling, the Lecturer, will be able to give his whole time to the College. It will then be possible to increase the seminar and tutorial work. The Library of Philosophy and Psychology is now housed in the North Wing on the Second Floor. Philosophy.

The classes in the Department of Economic Geography, under Professor Fawcett, have in some cases outgrown the accommodation provided for them in Arts Annexe 2. The map-work is being carried on with greater ease owing to the improved facilities that were effected last Session. The programme of work includes lectures in the Departments of Botany, Zoology, and Anthropology. Owing to ill-health Miss Shackleton, the Lecturer, was obliged to seek leave of absence for the First Term. Her work was divided amongst the other members of the Department. (For the Evening School, see p. 79.) Economic Geography.

FACULTY OF LAWS.

There are 102 students enrolled in the Faculty of Laws this Session, of whom 85 are taking the Day Course. The development of tutorial work, with the assistance of Mr. Guest and Mr. Gilbert, has continued.

The subject hitherto known as Muhammadan Public Law and Turkish Land Law has been re-named The Law of Palestine, Cyprus, and Iraq, and the syllabus has been revised. Mr. S. G. Vesey FitzGerald is continuing to act as deputy to Judge W. H. Hill, who is still serving as British Member of the Anglo-Turkish Arbitral Tribunal at Constantinople.

As already recorded (p. 64), the Senate have conferred University Readerships on Mr. H. F. Jolowicz and Mr. A. Sabonadière in Roman Law and Indian Law respectively.

FACULTY OF SCIENCE.

The long needed extension of accommodation for the Department of Psychology, following on the closing of the adjacent Department of Hygiene, has already resulted in increased activity in research. The number of students working in the Department, particularly postgraduate students from other countries, shows a steady increase. To meet this growth the staff has been augmented by the appointment of three Research Assistants, Miss Simmins, Mr. Stephenson, and Miss Studman. The Department has for so long carried on good work under cramped conditions that it is a source of satisfaction to Professor Spearman's colleagues to see him in more adequate Psychology.

surroundings. New apparatus has been made to meet the new opportunities. As a general contribution to College work, the psychological test conducted by the Department for "Freshmen" at the opening of the Session has proved to be of value, also the Lectures on "Aids to Study" given by Professor Spearman to the new students each Session.

Applied Mathematics. The opening of the University Observatory at Mill Hill Park by the Astronomer-Royal, Sir Frank Dyson, in October 1929 has provided increased opportunity for astronomical work. In addition to the Wilson 24-inch Reflecting Telescope by Sir Howard Grubb, the offer of which by Mr. J. G. Wilson was the occasion of the creation of the Observatory, other valuable additions to the equipment have been given. They are referred to on p. 61. The Observatory is also provided with a Spectrographic Laboratory containing a 10-foot Rowland grating spectrograph and a universally-mounted cœlostat by Cooke. The thanks of the Committee have been conveyed to the Director of the Observatory, Professor Filon, and to the Wilson Observer, Mr. C. C. L. Gregory, for the care and skill that they have given to the preparation of plans and the design of equipment and accessories.

Botany. The Department of Botany is at work under Professors T. G. Hill and Salisbury in accommodation that has long been inadequate for it. The new Professors have laid the needs of their Department before the Committee, and its better accommodation is one of the problems that will have to be solved in the near future. A portion of the grounds of the University Observatory at Mill Hill Park is to be used as a botanical garden.

Zoology. A scheme for the full development of the study of Zoology in relation to other Departments, which has been prepared by Professor D. M. S. Watson and approved by the appropriate bodies, still awaits the new accommodation, without which it cannot bear fruit. A reference to this need is given in greater detail on p. 22. The better accommodation of Botany in rooms now used by Zoology is also dependent on the scheme.

Chemical Engineering. Professor Gibbs is carrying on the work of the Department of Chemical Engineering in his temporary quarters, awaiting the building of the new Ramsay Memorial Laboratory. Plans are now under consideration, and it is hoped that the erection of the Laboratory will begin in the near future. Six students took the full course in Chemical Engineering last Session, and five others were carrying out researches.

FACULTY OF ENGINEERING.

Municipal Engineering and Hygiene. As a result of the closing of the Department of Hygiene and the merging of the medical aspects of its work in the new London School of Hygiene and Tropical Medicine, the Department of Municipal Engineering has been re-organised as the "Edwin Chadwick Department of Municipal Engineering and Hygiene." The work of the Department has been re-organized and the staff augmented, with Mr. H. J. Collins, of the Department of Civil and Mechanical Engineering, as Assistant Professor, and Dr. M. E. Delafield as Special Lecturer in Hygiene, by arrangement with the London School of Hygiene

and Tropical Medicine. Funds for the complete equipment of the Laboratory that has been formed in the basement of the Engineering wing will have to be found before full advantage can be taken of the new opportunities that await the Department. A beginning has been made by means of the special grant of £500 from the Chadwick Trustees.

Civil and Mechanical Engineering.

In the Department of Civil and Mechanical Engineering, the experimental machinery that had been purchased from the Finsbury Technical College has been re-conditioned during the past Session; the Paxman-Lentz Steam Engine and the Laval Steam Turbine have been fitted and installed. By means of funds from the Hawkesley Bequest, a further steam turbine and dynamo of a different design have been purchased. These additions to the equipment have aided the active prosecution of research.

Electrical Engineering.

In the Department of Electrical Engineering, important new units of plant and apparatus have been provided in both laboratories. A re-arrangement of laboratory and workshop space has been made with a view to providing more room for plant and enabling a larger number of students to work. Researches are in progress on the rectification of alternating currents, the electrical and magnetic properties on different forms of transmission lines, the mechanism of electric conduction in metals, and the characteristics of thermionic voltmeters. It is satisfactory to note that there has been an increased demand for University graduates from the Electrical Engineering industry.

FACULTY OF MEDICAL SCIENCES.

The principal event in the work of the Faculty during the year under review is the closing at the end of last Session of the Department of Hygiene and Public Health, and the transfer of its medical work to the new London School of Hygiene and Tropical Medicine, where Dr. M. E. Delafield now occupies the University Chair of Chemistry as applied to Hygiene. The regret that the College has felt in closing a pioneer Department established in 1869, whose students have obtained many of the most important Public Health appointments in the Country, is tempered by the prospect of co-operation between the new School and the Departments of the Faculty of Medical Sciences to mutual advantage.

Anatomy.

In the Department of Anatomy, the facilities offered by the Radiographic Department and the Museum are used to an increasing extent, both for research and teaching. The Radiographic Department has also been used in co-operation with the Medical School in connection with their clinical and laboratory work, and nurses in training at the Hospital have made use of the Museum. During the Summer Term, Professor Elliot Smith was granted leave of absence to enable him to attend the Pacific Science Congress at Java as representative of the Royal Society and of the British Government. Dr. H. A. Harris carried on the work of the department in his absence.

Physiology.

The number of research workers in the Department of Physiology was 35 last Session; so far, 27 have registered this Session. They are drawn from many nationalities and are evidence of the high

reputation that the Department holds in the scientific world. The list of papers published as a result of their investigations is a long one.

The equipment has been further improved by means of the Rockefeller Benefaction. The resources of the department have been augmented by the institution of the Bayliss-Starling Memorial Scholarship, of the annual value of £120, to which reference is made on p. 61.

Pharmacology. The Department of Pharmacology also records great activity in the field of research. An alteration in the time-table, by which the course in Pharmacology is now given in the final two terms of the students' study in the Intermediate Medical Sciences, has come into operation with beneficial effects. The number of rooms required for the prosecution of the researches that are in progress makes it somewhat difficult to find the necessary accommodation for practical instruction.

THE LIBRARY.

The structural improvements and redecoration of the General Library, made possible by the generous grant received from the Treasury, involved the necessity of providing temporary accommodation for readers during the whole of the first term of the Session 1928–29. The contractors had completed the work by December 1928, and the task of returning the books to the room was carried out during the Christmas Vacation. The fact that certain new bookcases had at the same time been provided in the Science Library, enabled the Librarian to make improvements in the arrangement of the contents of the two rooms; the Graves Library of mathematics and allied subjects was moved to the Science Library, and the space thus vacated in the General Library allotted to the large collection bequeathed to the College by the late Sir John F. Rotton; the whole of the valuable Dante Collection was brought together in one bay in the General Library and better provision made for the Ricardo Library of economics, for the books dealing with the History and Government of the U.S.A., and for the Fine Art Collection.

New accommodation having been provided for the Faculty of Laws in Crabb Robinson Hall, the Law books have been moved to two large rooms in that building with much improved accommodation for readers.

The Library of the London Mathematical Society, received under the terms of the agreement alluded to in the Report of the Library Committee, 1927–28, has been made available to readers in the course of the Session.

An agreement has been made between the College and the Council of the Malacological Society by which, under certain conditions, the Society's books, which are housed in the Library, become available for the use of members of the College.

There have been a number of changes in the personnel of the Library staff. Dr. W. Bonser resigned his appointment as Sub-Librarian on January 1st, 1929 to take up the position of Librarian in the University of Birmingham. Miss H. M. Clark, Assistant Librarian,

and Mr. H. J. White, Library Assistant, also resigned on obtaining other appointments. Miss N. Beale, B.A., formerly Assistant Librarian, has been appointed Sub-Librarian. Mr. O. W. Pendleton, M.A., and Mr. A. E. Tooth, M.A., have joined the staff as Assistant Librarians.

Considerable time was devoted by the Library Committee during the Session 1928–29 to a revision of the Library regulations with a view to their simplification and to the provision of additional facilities for borrowing. The revised regulations came into force at the commencement of the Session 1929–30.

A total of 4,113 volumes and 3,615 pamphlets was added to the Library during last Session, making more than 305,000 volumes and pamphlets in the Library.

EVENING AND VACATION COURSES, AND MEETINGS OF OUTSIDE SOCIETIES.

The evening activities of the College are maintained, and the buildings are open on five evenings of the week for the purpose of special work, mainly of a post-graduate character.

In the *Evening and Post-graduate School of History* the number of students enrolled for the current Session is 140. The work of the School is highly valued by school teachers and specialists in History. It is carried on in close co-operation with the Institute of Historical Research, of which Professor Pollard is Director. Mr. Norman Baynes is Director of the Evening School. During the current Session, Miss Olwen Kendall has been appointed his deputy for teaching work, but he is retaining his administrative supervision.

The number working in the *Evening School of Geography* this Session is 95.

The *Evening School of Phonetics and Spoken Language* attracts large numbers of teachers of Modern Languages, and its influence on methods of language teaching continues to spread. There are 142 Students registered for the current Session. A Summer Vacation Course in Spoken English for Foreign Students was not held in 1929, but a Short Course in French Phonetics for Teachers was, by arrangement with the Board of Education, held in the Long Vacation.

The meetings of the Philological Society, the Geologists' Association, the Jewish Historical Society, the Ancient Egypt Circle, the Folk-Lore Society, and the University of London Law Society are held regularly in the College.

In addition to these, other Societies, including the Classical Journals Board, the British Mycological and Ecological Societies, the Society of Glass Technology, the British Society of Franciscan Studies, the British Institute of Philosophical Studies, and Division II. of the Headmasters' Association, have met from time to time.

The following have also held meetings at the College:—The London International Assembly of the League of Nations Union, the Association of University Women Teachers, the Council of the Central Library for Students, the Joint Standing Committee on Library Co-operation, the Union of Hebrew and Religion Classes, the School Nature Study Union, the Physiological Society, and the Royal Medico-Psychological Association.

The Centenary Meeting of the Zoological Society of London was held in the Great Hall on 29th April, 1929.

The Eighteenth Annual Conference of Educational Associations, the Conference of the Historical Association, and the Conference of the Classical Association were held at the College in January, 1930. The London Schools and Colleges Dining Club, the Aristotelian Society, and the London Branch of the Leeds University O.S.A. have dined in the College Refectory.

Five University Tutorial Classes are meeting at the College this Session.

The Federation of London Working Boys' Clubs was accommodated in the Slade School for a drawing competition, in which a member of the Slade School co-operated in setting and judging the work, in January 1930.

SPECIAL EVENTS.

On 13th March, 1929, the Vice-Chancellor's Reception to Delegates to the Conference for the Scientific Study of International Relations, was held in the College Library. As the Vice-Chancellor, Sir Gregory Foster, was absent through illness, Sir William Beveridge, an ex-Vice-Chancellor, and the Chairman of Convocation, Mr. S. L. Loney, received the guests on his behalf.

On 30th April, the 102nd Anniversary of the laying of the foundation stone of the College by H.R.H. the Duke of Sussex, the annual Fellows' Dinner was held, Professor F. W. Oliver presiding. Documents and pictures relating to the history of the College were on view.

On 27th June, the Sixth Dinner to the Ramsay Memorial Fellowship Trustees and the Ramsay Memorial Fellows was held, the Provost of the College and Vice-Chancellor of the University, Sir Gregory Foster, acting as host.

On 3rd July, Professor F. W. Oliver was, on the occasion of his retirement from the Quain Chair of Botany, entertained at dinner by friends, past and present colleagues and students. Professor F. O. Bower, F.R.S., presided. In the course of the evening an Album, containing the signatures of the subscribers to the Oliver Commemoration Fund, was presented. (See p. 61.)

On 5th July, the Petrie Medal, awarded by the University for distinguished work in Archæology, was presented to Sir Aurel Stein by the Vice-Chancellor, Sir Gregory Foster, in the Botanical Theatre. Professor Sir Flinders Petrie spoke of Sir Aurel Stein's work in Central Asia, China, and Persia.

On 13th September, the Japanese Delegation to the Educational Conference at Geneva, under the leadership of Count Hirotaro Hayashi, visited the College. They were received by the Secretary and were shown many parts of the buildings. They subsequently visited the University Site and the Institute of Historical Research.

On 8th October, the Vice-Chancellor's Dinner following the Opening of the University Observatory at Mill Hill Park by the Astronomer-Royal, Sir Frank Dyson, was held at the College.

On 7th November, the second Rickman Godlee Memorial Lecture was delivered by Viscount Grey of Fallodon on "Natural History, the Pleasure and Purpose of Observation." Sir John Bradford, President of the Royal College of Physicians, presided.

On the evening of 11th November, the Provost (Sir Gregory Foster) and Miss Gregory Foster were At Home in the Great Hall. Madame Alma Haas played on the Lady Foster piano (p. 32), Miss Phyllis Carey Foster and Miss Elsie Owen contributed songs and violin solos respectively.

On 28th November, the annual Charter-Day Dinner was held. Among the guests was the Rt. Hon. The Earl Beauchamp, Chancellor of the University. On 28th and 29th November, an exhibition of the Charter and documents relating to the History of the College was arranged by the Librarian.

On 21st, 22nd, 28th, and 29th January, 1930, the Hibbert Lectures were delivered at the College by Professor S. Radhakrishnan, of the University of Calcutta, on "An Idealist's Philosophy of Life."

On 22nd January, the League of Nations Union and the Rotary Clubs of District 13 were At Home to the Students' International Assembly at the College. The guests were received by the Viscount and Viscountess Cecil, the Provost, and representatives of the Rotarians. Many representatives of the Overseas Dominions and of the foreign diplomatic corps were present. The Provost presided at the meeting in the Great Hall and welcomed the hosts and guests to the College. After the Roll Call of the Nations (to which members of nearly forty countries responded) by Rotarian John Hall, the Viscount Cecil and Rotarian H. Norton Mathews addressed the assembly. A musical programme by eminent artistes, arranged by Lady Henschel, then followed.

STUDENTS' ACTIVITIES.

The Union Society and the Women's Union Society record a year of activity and progress. The Inter-Union Standing Committee continues its useful function as a co-ordinating link between the two Societies. The programme for the Foundation Week of 1929 included an Oration on "A Seventeenth Century Discussion of Democracy" by the Master of Balliol, Mr. A. D. Lindsay; performances by the Dramatic Society of Lennox Robinson's "The Round Table," produced by Messrs. D. B. Clulow and E. G. Emery; a Concert, a Debate, and a Dance.

The athletic activities of the Union Society have been maintained, and College men have continued to take their share in University athletics. Six played regularly in the University Rugby Football team last season; the College won the Intercollegiate Cup. Five played in the University Association Football XI. and the University Hockey Club. The Boxing Club, while suffering several reverses, won the Blott Cup, and seven members have boxed for the University; one, R. W. J. Hewson, is I.V.A.B. Champion at his weight. The Cricket Club had a successful season, the 1st XI. losing one only out of nineteen matches played. The Athletic Club confined its activities to cross-country running, and three members have run for the University.

The Rowing Club has had some ontstanding successes, among them the winning of the Allom Cup. The College also won the Winter Eights for the President's Cup, and gained twelve places in the Head of the River Championship. During last Long Vacation, the College crew entered for the Juniors at Kingston and Maidenhead Regattas.

The Fencing Club has maintained its high standard of previous years, securing victories over the Royal Horse Guards, the Masks, the H. A. C., the Royal Navy, and the Royal Marines. The only two matches lost last season were to the R. A. F. and the Grosvenor Club. The Hospital representatives won the Inter-Hospital Cup. C. P. Collins was University Champion with epée, foil, and sabre.

The Women's Union Society's athletic activities have also flourished. The Badminton Club won seven out of the ten matches played; the first team of the Netball Club won the Intercollegiate Cup, and the Rowing Club the Intercollegiate Cup for the Clinker Eight, Sculling Pairs, and the Senior Four. The Cricket, Fives, Hockey, Lacrosse, and Tennis Clubs have kept up steady work.

The Women's Union Society At Home in May was one of the social successes of the year, and was attended by about eight hundred guests.

The College Committee has considered further the reconstitution of the University Union, and has shown its willingness to co-operate in its success by undertaking to pay a capitation fee for every full-time student entered at the College, who thereby becomes a member of the University Union.

The Lunch-Hour Concerts, that were instituted last Session, have been continued this Session, and have been greatly appreciated. The thanks of the College are due to the following artistes who have participated in the concerts since the last Report; their names are given in the chronological order of their recitals:—The Elsie Owen String Quartet; Miss Margaret Balfour (contralto); Miss Ruth Aranjo, Miss Dorbec and Miss Towsey (violin duos with piano); Miss Anne Liddell (contralto); Mr. Harold Fairhurst (violin); Mr. Frederick Woodhouse (baritone); and Mr. Reginald Paul (piano).

Dr. Richard Chanter, of University College School, has kindly undertaken the office of Conductor of the Choir and Orchestra. in

connection with the newly-formed College and Hospital Music Association, which has already done much to stimulate interest in music and to organize the talent that is available. In addition to its own informal musical evenings, members of the Music Association arranged the concerts following the Foundation Oration and the Assembly of Faculties, and supplied music for the performances of the Dramatic Society.

The Dramatic Society has worked hard to maintain the high standard that has been set in recent years, and has achieved considerable success. In addition to the Foundation Play, "The Man with a Load of Mischief" (Ashley Dukes) was given as the Christmas play, Mr. L. Abley acting as producer. In January 1930 "The Little Plays of St. Francis" by Mr. Laurence Housman were presented for the sixth year in succession. Ten plays, of which some had not previously been given at the College, were arranged in two series, under the direction of Mr. W. A. G. Doyle-Davidson, six evening and two afternoon performances being given. The proceeds will, as in former years, be divided between the British Society of Franciscan Studies and Charities, including the St. Christopher's Working Boys' Club. This week of Franciscan Plays early in the New Year has become an event to which many members of the College community look forward with keen interest, and the number of outside supporters, drawn from the British Society of Franciscan Studies and other circles, is growing steadily. The performances will always be associated with the memory of Dr. Walter Seton, to whose enthusiasm their inception was due. The quiet and sympathetic attention with which the Plays are followed is the best tribute to the sincerity of the players and the beauty of the production.

It is impossible to present a detailed record of the various College societies that are at work. The following have sent in reports that show considerable activity :—The Ancient History Circle, the College and Hospital Anthropological Society, the Botanical Society, the Classical Society, the Critical Society, the Ethical Union, the Geographical Society, the German Society, the Greenough Club (Geology), the Historical Society, the Jevons (Economics) Society, the Mathematical and Physical Society, the Physiological Society, the Psychological Society, the Société Française, and the Zoological Society.

The Librarianship Students' Association, in addition to their ordinary meetings, gave a successful performance of an original topical extravaganza, written by Mr. E. Smart, a former student, produced by Miss E. Stuyvesant, and entitled "Gobbo Hys Boke-Seleccyon." They also held a dinner in December, at which Lord Balniel, President of the Library Association, and Sir Frederic Kenyon were present.

The Literary Society, in addition to its general meetings, held its Centenary Meeting on 7th March, 1929, when Professor R. W. Chambers lectured on "A Hundred Years of the Literary Society."

The Faculty of Arts and the Faculty of Science Societies continue to do good work for their respective Faculties, and have been active

in the organisation of social events. The Engineering and Medical Societies have also had a successful year. The University of London Law Society meets regularly at the College.

The College branches of the Student Christian Movement, the London Inter-Faculty Christian Union, and the University of London Catholic Society have arranged regular meetings and services; the two former also hold study circles and Fellowship Meetings. The Student Christian Movement held a successful concert last February, with the aid of the Temple Church Male Voice Choir.

The Architectural Society has taken on a new lease of life. It was originally founded in 1905, but had lapsed for some years. In addition to its ordinary meetings, it has made a feature of dramatic performances.

The Old Students' Association and the Guild of Graduates have continued their important work of keeping past and present students in touch with one another and with College and University movements. In addition to its Annual Dinner and Dance, the Old Students' Association was the chief agency in securing the memorable gathering, on 20th December, of past and present students at the Connaught Rooms in connection with the retirement of Sir Gregory Foster (see p. 25). The Guild of Graduates arranged the usual Complimentary Dinner to new Graduates on 7th May, 1929, the eve of Presentation Day.

The St. Christopher's Club for Working Boys in the neighbourhood of the College provides a practical outlet for social work on the part of the students. The Earl of Plymouth is President of the Club, and Sir Alexander Gibb Chairman. The Club is divided into three sections: Juniors, Seniors, and Old Boys, and has a Cadet Corps. Last year's Summer Camp for the Cadet Corps was, by special invitation, held in Belgium.

The number of College Societies has been supplemented by the formation of a Guide Club.

THE HALLS OF RESIDENCE.

The Report of the Council of College Hall for 1928–29 records an active year, with the Hall and Annexes filled to capacity during most of the time. Of the 84 residents, 70 were University College students, the others coming from the London School of Medicine for Women, King's College, the London School of Economics, and Bedford College. Dr. Mary Brodrick has continued to show her practical interest in all that pertains to the Hall by personal visits and by many gifts to promote the social life.

University College Hall has also been full. The Governors of Ealing Hall Association have adopted a re-building scheme, with a view to dispensing with the Annexe and providing accommodation within the Hall itself for seventy residents. Plans have been approved, and it is hoped that means will be found to carry out the work at an early date.

THE WINIFRED SMITH MEMORIAL.

(THE OLD FORGE, CHIDDINGLY.)

The Committee of Management of the Winifred Smith Memorial (The Old Forge, Chiddingly), which is held in trust for the benefit of the Women Students and the Women Members of the Staffs of the College and of College Hall, London, report that during the year ending 1st September, 1929, sixty-four visitors stayed for one or more nights at the cottage, the length of the visits ranging from one night to a week. The right-of-way, held by the owner of the adjoining property, through the gate and along the grass road has been relinquished, and the cottage and garden are now held free from tithes and other encumbrances. The amount of the Endowment Fund is over £100, and the money has been invested. The list of donations is given on pp. 108–109. To these should be added the sum of £20, given by the Women's Union Society prior to 1928-29. The income will be used to reduce the cost to visitors staying at the cottage.

Dr. Mary Brodrick has provided money for garden tools and equipment.

A grant of £10 from the Crabb Robinson Fund has been received for the Maintenance Fund.

Miss Edith Goodyear is Chairman of the Committee of Management, Sir Gregory Foster Hon. Treasurer, and Miss H. Winifred Husbands Secretary.

THE CRABB ROBINSON FUND.

During the financial year 1928–29, the following grants were made from the Income of the Crabb Robinson Fund :—

> Towards the Racquet Court, £50. *The Union Society*—towards upkeep of the Athletic Ground, £75; cleaning of Racquet Court, £6 10*s*. *The Women's Union Society*—towards the Athletic Ground and Furniture, £50. *University College Hall*—towards the Library, £10. *College Hall*—towards the Library, £5. *Winifred Smith Memorial Cottage Maintenance Fund*, £10.

The following grants have already been made during the current year, being chargeable against the income of 1929–30:—

> Towards the Racquet Court, £50. *The Union Society*—towards upkeep of the Athletic Ground, £75; expenditure on Fives Court, £39; cleaning of the Racquet Court, £6 10*s*. *The Women's Union Society*—towards the Athletic Ground, £50. *University College Hall*—towards the Library, £10. *College Hall*—towards the Library, £5. *Winifred Smith Memorial Cottage Maintenance Fund*, £10.

A bookcase that was given by Henry Crabb Robinson to the late Dr. Talfourd Ely (Fellow; Secretary of the College 1876–1886) and two armchairs that were once the property of Henry Crabb Robinson have been purchased by the College Committee.

THE PEEL FUND.

The income of the Peel Fund was expended in grants for the purchase of books etc. made to the following Institutions:—

The Victoria League, Cromwell Road, S.W., £7 10*s.*; Rugeley Jubilee Library, £7 10*s.*; Mechanics' Institute, Bishop Auckland, £7 10*s.*; Mechanics' Institute, Alnwick, £7 10*s.*

UNIVERSITY OF LONDON, UNIVERSITY COLLEGE.

SCHOOL OF LIBRARIANSHIP.

DIRECTOR'S REPORT.

SESSION 1928–29.

During the Tenth Session of the School of Librarianship the number of Students was as follows:—

Full-Time.		*Part-Time.*	
Men	15 (11)*	Men	21 (12)
Women	65 (44)	Women	26 (10)
	80 (55)		47 (22)
Total	127 (77)		

* The figures in round brackets mean First Entries.

The corresponding figures for 1927–28 were 77 (44), 52 (20), and 129 (64).

The part-time Students included 24 holding Free Places in the School under the scheme of the London County Council providing such places for selected workers in libraries in the metropolis. There were 3 Students from the United States, 5 from Scandinavian countries, and 6 from other countries in Europe and Asia. The Students holding degrees of this or other universities numbered 29.

The results of the Diploma Examination were as follows:—

Part I.				Part II. and whole examination.			
No. of Cand.	Passed.	Failed.	Ref. in 1 subj.	No. of Cand.	Passed.	Failed.	Ref. in 1 subj.
28	17	8	3	49	35	9	5

Twenty-nine Students were awarded fifty-four Sessional Certificates in separate subjects.

The Sir John MacAlister Medal was won by Miss Mary M. E. Hammond, B.A. The Director's Prize for the best work in Book-Selection was also awarded to Miss Hammond. The Entrance Exhibition for the Session 1929–30 was awarded to Miss Gwendoline P. P. Knowles, and a Free Place in the School was granted to Miss Irene M. Shrigley, B.A.(Oxon.).

A special course of six lectures was given by Mr. Headicar on "The Organisation and Administration of County Library Systems." The School is also specially indebted to Major Cyril Davenport, Professor A. E. Richardson, Dr. Richard Offor, Mr. W. E. Doubleday, and to members of the Staff for public lectures on library economy and administration. They were all well attended.

A great many visits were paid to libraries, printing and binding establishments, museums and art galleries, and other places of interest. Many visits and excursions were also organised by the Students' Association, which has continued to publish a Magazine at the end of each term.

During the Long Vacation most of the Students taking a two-year course did periods of practical work in public libraries in different parts of the country. Small groups of Students also undertook such practical work as the re-organisation of the library belonging to the Library Association, and the compilation of lists of books for purchase by this and other libraries. The practical work in Book-Selection, which is a requisite part of the examination in this subject, was also applied, as much as possible, for the benefit of actual libraries.

Additions to the library of professional literature attached to the School have been as follows:—

Purchased	..	93 Volumes.	4 Pamphlets+14 Volumes of periodicals completed during the Session.
Presented	..	17 Volumes.	31 Pamphlets.
Total	..	124 Volumes.	35 Pamphlets.

Changes in the Staff took place at the end of the Session owing to the resignation of Mr. Sanderson, who was appointed Deputy Librarian to the Toronto Public Libraries, and to the promotion of Miss Beale to be Sub-Librarian of University College.

The Staff and the Students were anxiously looking forward to the removal of the School to Henry Morley, where work will be carried on under easier conditions.

The Special Appeal Committee appointed to organise the appeal for an Endowment Fund has begun its work. For the present it has not been thought advisable to issue an appeal broadcast, but efforts have been made to induce a small number of benefactors to make up the amount required for the future of the School. A personal letter was sent, however, to Old Students, a number of whom made a very kind response, and contributed various sums to the Endowment Fund.

Appended is a report on the Annual Vacation School, which was held in Paris in August and September 1929.

ERNEST A. BAKER,

Director.

SUMMER VACATION SCHOOL AT PARIS, 1929.

The Tenth Vacation School was held this year at Paris from August 24th to September 7th, the summer being chosen to meet the desire of various students who wished to combine attendance at the School with their summer holidays, and to fill the gap due to the discontinuance of the Library Association's Summer School. The result was not satisfactory, since out of the forty-five students who joined there were only two in actual attendance at the School of Librarianship. The total number of entries was 50, but 5 persons were compelled to withdraw for various reasons. The total party,

including the teachers, numbered 50. The 45 included seven past students of the School of Librarianship; the remainder were librarians and library assistants, and a few teachers. The Vacation School was undoubtedly a success, but it is unfortunate that there was not a better response from students actually in the School.

The party left London by the Tilbury-Dunkirk route on Friday, August 23rd, arriving at Paris on Saturday morning; the majority returned on Saturday, September 7th. The programme of lectures included many new features: Monsieur Abel Chevalley gave a course of 7 lectures on "The French Novel of To-day," to which the 7 lectures by the Director on "The English Novel of To-day" were complementary. Two French librarians, Mlle Dandieu, Librarian at the Hôtel de Ville, and her brother, Monsieur Armand Dandieu, of the Bibliothèque Nationale, gave two lectures each on "French Women Novelists" and "Psychology in French Literature." Mr. Savers was prevented by ill-health from giving the lectures which he had undertaken, and Mr. Headicar took his place, giving 5 lectures on "Problems of the 20th Century Library." Mr. Acomb gave 4 lectures on "County Libraries: their objects, organisation, and working, and probable lines of development"; Mr. Martin Shaw Briggs kindly came from the Channel Isles to give three lantern-lectures on French Architecture, and acted as guide on a number of visits to cathedrals, châteaux, and other buildings in Paris and the neighbourhood. In preparation for the visit to Paris, the School of Architecture had kindly arranged three lectures on French Romanesque Architecture, by Mr. Stratton; French Gothic and Early Renaissance, by Mr. Corfiato; and French Late Renaissance, by Professor Richardson. Instructive visits were paid by the staff and students to the Bibliothèque Nationale, the Bibliothèque de l'Arsenal, the Bibliothèque Sainte Geneviève, and the château, museum, and library at Chantilly. In these, and other visits to libraries, the party were met by the chief officers and their staffs, and had the benefit of seeing all parts of the libraries and studying their methods of working. Besides the organised visits to the libraries, galleries, churches, etc., of Paris, there were excursions to Compiègne, Pierrefonds, and Fontainebleau. At the middle week-end the School went on a three-day excursion into Touraine, visiting the more important châteaux, and calling upon Monsieur and Madame Chevalley at their country house at Chançay, near Tours.

The lectures were held in the British Institute, Rue de la Sorbonne, and the students were accommodated at the Fondation Emile et Louise Deutsch de la Meurthe, at the Cité Universitaire. On September 3rd the students and staff were entertained at a reception by the Association de France Grande-Bretagne, and listened to an address by the General Secretary, Monsieur Jacques Arnavon.

The School is much indebted to the Committee of the British Institute and to the Director, Mr. S. B. Ward, M.A.; to the authorities of the Sorbonne for their kind co-operation; to the Fondation Deutsch de la Meurthe and the Director, Monsieur Jacques Giraud, for the excellent arrangements made to accommodate the students and staff; and more particularly for the trouble taken by Monsieur Chevalley beforehand and during the proceedings to help to make the Vacation School a success.

Unfortunately, Mr. A. H. Tingey, M.A., who was to have acted as Honorary Secretary, was called home immediately, and it became necessary to appoint a substitute a few days later in Mr. J. B. Zachary, of the Leeds Public Libraries, who made himself very useful. The National Union of Students assisted in the arrangements for travelling and for some of the excursions.

Director.

APPENDIX VI.

REPORT ON THE BARTLETT SCHOOL OF ARCHITECTURE.

SESSION 1928–29.

The number of students registered in the School of Architecture for the Session 1928–29 is as follows:—

	Men.	Women.	Total.
Full-time Day Students—1st year ..	19	1	20
2nd „ ..	19	2	21

Totals	187	26	213

* (This number includes 13 Fifth-Year Diploma and Degree Students already counted in Full-time Day Students' Returns.)

Town-Planning Department	25	4	*29

* (This number includes 12 Fifth-Year Diploma and Degree Students counted already in Full-time Day returns and in Atelier returns, and also 4 Students from the Faculty of Engineering.)

Included in the total of Full-time Day Students are 38 (31 men and 7 women) who are taking the Five-Year Course for the B.A. Degree in Architecture; of these, 9 (8 men and 1 woman) hold Entrance Exhibitions.

I have pleasure in announcing that Mr. W. F. Scarlett was awarded the Alfred Bossom Travelling Studentship (£250) and Gold Medal, Mr. A. V. Campbell winning the Silver Medal in the same competition; that Mr. J. T. Castle (an old student) won the Ashpitel Prize (books to the value of £10) and that Mr. L. M. Chitale (another old student) was "Honourably Mentioned" in the Grisselle Prize Competition (no Prize being awarded this year).

Among appointments obtained by our students, I may mention that Mr. J. Trevor Lloyd has become Senior Lecturer in Architecture at Witwatersrand University, and Mr. J. N. Summerson Junior Lecturer in Architecture at Edinburgh University.

Mr. Arthur Stratton, Reader and Tutor, has continued his valuable services, and has supervised the individual work of the students. Mr. Hector O. Corfiato, Senior Lecturer, has been responsible for design work, under my supervision, both in the Day School, in the Evening School, and in the Atelier. My thanks are also due to the following Architects for serving on the Triennial Jury in connection with the work of the Atelier:—Messrs. Arthur Davis, H. V. Lanchester, Charles Lovett Gill, and Professor S. D. Adshead. We have had a very full attendance at the Atelier this year, necessitating the use of the Cast Gallery for the whole of the winter session in addition to the outside Atelier. The students have been engaged in preparing plans for the betterment of London, in collaboration with the London Society, thereby gaining first-hand knowledge of conditions which need improving. Owing to the untimely death of Mr. Jaggard, some immediate reorganisation in the School became necessary; work in the Evening School is now in the charge of Mr. Hyde, and the Day School was fortunate enough to secure the assistance of Mr. Matthew Dawson, whose experience as a practising architect and lecturer has been of the greatest service to the Department. I am indebted to Mr. Corfiato for his extra attendances to supervise the Design section of the Evening School. The services of Mr. Warren Wilson, who has again supervised the drawing and original design by students of all years in connection with the decorative side of Architecture, have resulted in further improvement. The special course of study arranged at the British Museum and the Victoria and Albert Museum relating to the more technical branches of Design has been augmented. Mr. Alabaster has continued his valuable assistance in the supervision of the Studio work of the First- and Second-Year Students, while additional help has been afforded us by Mr. Stanley. A series of six lectures on Steel and Reinforced Concrete was given in the second term by Mr. W A. Drury and was well attended, 36 students being registered for this course.

I wish to express my thanks to Professor Adshead for his co-operation and for the training in Town Planning that he has given to my students.

I wish also to thank Professor Tonks, through whom our advanced students have been able to continue their studies from Life in the Slade School; as a reciprocal measure, many Slade students have attended courses of lectures on the History of Architecture given by Mr. Stratton and myself: some of the Slade students have taken Architecture as a subsidiary subject for the University Diploma of Fine Art. The scope of these inter-departmental lectures is increasing.

In collaboration with Professor Coker, Third- and Fourth-Year Students have received instruction in Reinforced Concrete and Steel Work from Mr. Sprague and Mr. Collins, of the Department of Civil and Mechanical Engineering, and facilities for training in these methods of construction are being extended. With the co-operation of Professor Ormsby, Mr. C. A. Hart, of the Department of Municipal Engineering, has given instruction in Surveying and Levelling. In addition, Dr. E. G. Richardson, of the Department of Physics, has contributed lectures in Acoustics to our senior students.

I have given several Public Lectures this session—at Bedford, Luton, before the Royal Society of Arts, and in connection with the

School of Librarianship. I may also mention that I am acting as Honorary Architect to the Advisory Committee on the Restoration o 115 Churches in Bedfordshire.

With regard to publications, Mr. Stratton has brought out a book on "Domestic Architecture of Renaissance England" and also a Handbook on "Tudor Renaissance," accompanying diagrams to be used in connection with the teaching of History in Secondary and Public Schools. I have made various contributions to the Press and to technical magazines.

An important feature of the Department has been the continuous exhibition of students' work and the entry of advanced students for the R.I.B.A. Competitions and the Prizes offered by the Royal Society of Arts.

THE DIVISION OF DECORATION.

The Division of Decoration under the supervision of its Lecturer, Mr. H. Warren Wilson, has had a successful session's work. The number of students attending this course will increase, it is hoped, and there is every indication that in the near future this Division will become considerably enlarged and form an important section of the Department of Architecture.

(Signed) A. E. RICHARDSON,

18*th June*, 1929. *Professor.*

DEPARTMENT OF TOWN PLANNING.

I have to report that the number of students now working in the Town-Planning Department is 29. Of these, 12 are taking Town Planning in connection with the Diploma Course in Architecture, 3 the Town-Planning Diploma in the University, and 7 the Certificate Course, 3 of whom are in their Second Year.

Last year two out of the three candidates were successful in obtaining the Diploma, and the third is entering again this year.

Mr. Henry Kendall, who obtained the Diploma in Architecture in the Session 1925–26, has lately obtained an important position as Assistant Town-Planning Superintendent at Negri Sembilan in the Federated Malay States; Mr. H. W. J. Heck, who obtained his Diploma in Architecture in the Session 1926–27, has recently received the appointment of Chief Town-Planning Assistant to the Chesterfield Regional Planning Committee.

During the Session, Public Lectures were delivered as follows:—Professor P. Abercrombie, M A., F.R.I.B.A., "Town and Country—A Contrast in Method"; Colonel Cooke, "Ordnance Maps and Town Planning"; Mr. W. G. Tarrant, "High Class Estate Development"; Mr. S. A. Hill-Willis, M.Inst.C.E.I., D.T.P., "Concrete Roads."

These lectures were well attended and were on subjects which should prove most helpful to the students.

(Signed) S. D. ADSHEAD,

June, 1929. *Professor of Town Planning.*
